The HD-P100AS Hand-Push Sweeper is ideally designed for use in a variety of environments such as exhibition halls, waiting areas, hospitals, factories, and residential roads. It operates with minimal dust and noise, ensuring a clean and quiet environment. Its compact design allows for effortless maneuvering in crowded spaces, while the lightweight structure ensures ease of use and maintenance. The sweeper is built for efficiency and convenience, making it an excellent choice for both high-traffic and sensitive areas.

**Advantage:**

- **All-in-One Functionality:** Combining sweeping, vacuuming, and water spraying in a single, fully integrated system, it offers efficient floor cleaning with simple one-touch operation.
- **Tool-Free Adjustments:** The main brush and side brush can be easily adjusted without the need for tools, ensuring convenience and user-friendliness.
- **Efficient Dust Control:** Equipped with a DC brush motor, it effectively controls dust, maintaining a cleaner environment.
- **Durable Tires:** Features a newly designed tire outer ring made from advanced materials, enhancing the overall lifespan of the sweeper.
- **Ergonomic Design:** The foot pedal utilizes vibration to shake off dust, providing a quick and efficient cleaning solution with minimal effort.
- **Compact Storage:** The push bar is foldable, making it easy to store and saving valuable space.
