HDV6 Specifications

- Model : HDV6
- Battery capacity : 24V/100Ah
- Driving motor : 500W
- Brush/Suction motor : 550W/450W(single brush)2x380W/450W(double brushes)
- Solution tank capacity : 60L
- Recovery tank capacity : 55L
- Max theoretical work efficiency : 2000mi/h (single brush)3200m²/h (double brushes)
- Applicable area : 2000-4000m²
- Maximum climbing capacity : 15%
- Product dimensions : 1350x580x1050mm
- Package dimensions : 1550x700x1240mm
- Scrubbing width : 710mm (double brushes)
- Wiper/Squeegee width : 1050mm (double brushes)
- Max speed : 9km/h
- Working time : 2-5 hours
- Net weight : 250kg (double brushes)
- Gross Weight : 325kg (double brushes)

Advantages

HDV6 ride on floor scrubber has lots of advantages such as affordable price and high cleaning efficiency.

- Intelligent integrated circuit board control, 8 main lines, stable performance
- Adopting electronic lifting technology with water scraper
- It has memory function and energy-saving function, Convenient to use
- Deep cleaning. Equipped with 380W brush disc motor and 450W suction motor
- Adopting ergonomic sitting operation
- Strong applicability, can be applied to different floors
