Ride-on floor sweeper Industrial model

Sweeping-Vacuuming in one

One-touch filter shaker

Compact and Flexible

MN-C200
SMALL SIZED ROAD SWEEPER

The HD-C200X is a high-performance, commercial-grade ride-on sweeper, featuring a cleaning width of 1,300mm. It can efficiently cover over 7,000 m² per hour, effectively replacing the manual labor of more than 30 people. This sweeper is specifically designed for cleaning a variety of surfaces, including asphalt, cement, gravel, and other rugged terrains, making it an ideal solution for large-scale outdoor cleaning tasks.

Advantage:

- **High Efficiency:** With a cleaning capacity of 7,000 m² per hour, the MN-C200X can replace the manual labor of approximately 30 workers.
- **Enhanced Worker Comfort:** Optional shade and front glass protect operators from harsh sunlight and heavy rain, ensuring a safer and more comfortable working environment.
- **Convenient Waste Disposal:** The 130L drawer-style dustbin allows for easy and efficient waste dumping.
- **Intuitive Operation:** The user-friendly button-based control panel makes operation straightforward, even for new users.
- **Adjustable Brush Pressure:** The rolling brush pressure is adjustable, allowing the sweeper to adapt to various surface conditions and sweeping needs.
- **Dust Control:** An optional spray attachment helps prevent dust from rising during sweeping, maintaining a cleaner environment.
- **Bulky Waste Handling:** The flap system is designed to handle large debris such as bottles and bricks.
- **Superior Sweep-Suction System:** Provides optimal sweeping and suction performance, ensuring thorough cleaning.
- **Durable Construction:** Built with a heavy-duty steel frame, ensuring long-lasting durability and resilience.
- **Efficient Filtration:** The filter-shaker system enhances filter efficiency and extends the life of the filter, ensuring consistent performance.

Specifications :

NO.	ITEM	UNIT	SPECIFICATION
1	Sweeping width	mm	>1300
2	Cleaning efficiency	m ² /h	>7000
3	Max gradeability	%	20
4	Main brush's length	mm	700
5	Side brush's diameter	mm	500
6	Power supply	V/Ah	48V100Ah
7	Working time	h	4-5
8	Dustbin capacity	L	130
9	Driving power	W	1200
10	Working power(motor) main brush+fan+sidebrush+dust vibrating	W	600+400+80×2+50
11	Working speed	km/h	6
12	Driving speed	km/h	8
13	Filtering area	m ²	5
14	Turning radius	mm	1000
15	Dimensions(L/W/H)	mm	1600×1300×1400
16	Net weight	kg	460
17	Water tank capacity	L	30 (optional)

130L large garbage bin

Cleaning efficiency over 7,000m²/h

60L water tank

WATER SPRAYING TO SUPPRESS DUST, NO DUST FLYING

Large water spraying can effectively prevent
secondary dust flying
