**H82 DABBAB** is equipped with hydraulic lifting tailgate for efficiently loading and unloading garbage bins. It can carry eight 240L garbage bins. The tailgate is national certificated.

**Advantage:**

● **Heavy-Duty Chassis:** The chassis is designed with longitudinal and transverse beams, incorporating car-grade and truck-special steel materials, providing exceptional strength and load-bearing capacity.

● **Reinforced Suspension System:** The vehicle utilizes a reinforced car bridge with an integral bridge-type front and rear suspension frame, offering superior bearing capacity.

● **Advanced Vehicle Control:** The control system is powered by a single-chip microcomputer, featuring a resistance-type accelerator and comprehensive safety functions such as anti-electromagnetic interference, startup delay, reverse deceleration, electronic anti-slip slope, energy feedback, fault error reporting, CAN communication, and EPS. The vacuum-assisted brake system ensures enhanced safety.

● **Hydraulic Tailgate:** Equipped with a fully automated hydraulic tailgate, the system easily controls the lifting and dumping of waste hoppers, whether full or empty, for smooth and efficient operation.

● **High-Quality Windshield and Tires:** The windshield is made from double-curved, lined adhesive material for added durability and clarity, while the vehicle is fitted with radial vacuum tires for improved stability and performance.

**Specifications :**

NO	Item Name	Unit	Specification	
1	Dimensions(L/W/H)	mm	4400×1480×2100	
2	Cargo bed	mm	2850×1340×600	
3	Number of passengers	staff	2	
4	Curb Weight	kg	1730	
5	Rated load	kg	1200	
6	Gross Vehicle Weight Rating (GVWR)	T	3	
7	Top speed	km/h	≤25	
8	Minimum turning radius	m	6	
9	Mileage	km	80-100	
10	Wheel track	mm	1200	
11	Wheelbase	mm	2150	
12	Minimum off spacing	mm	200	
13	Maximum Gradeability	%	25	
14	Smallest braking distance	m	≤4	
15	Motor	v/kw	72/7.5	
16	Battery pack	AH	210 (Free maintenance batteries)	
<b>Hydraulic tail plate technology parameters</b>				
1	Hydraulic	Turn	mm	50/30~89
		Lift	mm	50/39~106
2	Power		kw	2
3	System pressure		Mpa	12
4	Maximum pressure		Mpa	16
5	Movement speed		S	5
6	Weight capacity		kg	400

LARGE CAPACITY

GARBAGE REMOVAL

# LARGE-CAPACITY GARBAGE TRANSPORT

8 standard 240L garbage bins for efficient operations

Optional enclosed compartment

OFFER YOU A FRESH WORLD!
