Articulated Fuel Powered Sweeper

Model : MN-F3000

☎ 966-55 003 3692

☎ 966-58 000 6668

The HD-F3000 fuel-powered sweeper is a high-end design widely used on urban roads, sidewalks, non-motorized lanes, pedestrian streets, squares, parks, green spaces, and parking lots. It is especially suitable for narrow and winding roads.

Fuel Powered

Ride-on

Enclosed

Self-unload

Application scenario

1 : Municipal

2 : Factory

3 : Road

4 : Plaza

5 : Community

6 : Property Management

OFFER YOU A FRESH WORLD!

Cleaning Targets

Efficiently cleans various hard surfaces such as asphalt, cement, stone, terrazzo, or brick. Especially effective for leaves, cigarette butts, small stones, dust, and other solid waste.

6 : Fallen Leaves

Product Detail

OFFER YOU A FRESH WORLD!

Function

1. Headlight
2. Wiper
3. Rear View Mirror
4. Signal Light
5. Front Side Brush
6. Water level Line
7. Water Diesel
8. Fuel Inlet Tank

9. Handheld Suction Port
10. Garbage Discharge Port
11. Water Tank
12. Water Tank
13. Rear Turn Signal Light
14. Warning Light
15. Garbage Suction Pipe

Performance Features

- **Spacious cabin with ergonomic seat and control lever design offers a comfortable working experience.**
- **Articulated structure enhances maneuverability; compact and streamlined body makes it ideal for narrow and curved sidewalks or bike lanes.**
- **Powerful sweeping ability handles road litter such as leaves and plastic bottles with ease.**
- **Equipped with a misting dust suppression system that effectively reduces airborne dust.**
- **30HP engine with efficient 4-wheel drive ensures strong climbing and obstacle-crossing performance for uneven roads.**
- **Hydraulic dump garbage bin supports fully automatic, safe, and reliable operation compatible with transfer stations.**
- **Wet dust suppression system without filter ensures stronger filtration, clog-free operation, and smoother sweeping.**
- **Lightweight design makes it ideal for operations on lawns and green areas—leaves no trace behind.**

Technical Specifications:

No.	Description.	Unit	Specs
1	Engine Brand		Yanmar diesel engine (Japan)
2	Engine Power	KW	22.2
3	Dimensions (L×W×H)	mm	3450*1120*2250
4	Operating Weight	kg	1200
5	Suction Pipe Diameter	mm	φ150
6	Max Sweeping Width	m	1.6
7	Fuel Tank Capacity	L	30
8	Fuel Consumption (work)	L/h	2.5
9	Wheelbase	mm	1180
10	Dust Bin	L	650
11	Water Tank	L	150
